

## Celtic Lacrosse Developmental Training Registration

Hello all lacrosse parents,

My name is Patrick Crann, the founder of Celtic Lacrosse Training, a lacrosse training school for boys and girls, grades 3<sup>rd</sup> through 12<sup>th</sup>. My goal is to provide the very best instruction for the beginner as well as the advanced lacrosse athlete. I have started Celtic Lacrosse, because I truly believe that to keep up with the highly competitive nature of athletics these days, young athletes need to train very seriously. Camps are a great way to learn about the sport of Lacrosse, however, the number one complaint I get from young men and women about camps is that they are repetitive and they are learning the same stuff over and over. Celtic Lacrosse instruction gives a new way of approaching and learning the sport of lacrosse. Celtic Lacrosse provides top notch lacrosse instruction whether it is a tailor made path through 1v1 training methods or small group developmental sessions to raise player's lacrosse IQ. Every child reaches different levels of development through out their athletic careers. Through my experience I have learned that each individual player wants to achieve a goal through hard work and dedication. My goal as founder is to provide attaining these goals with quality instruction and hard work. Before the actual initial lesson it is important to find out what exactly each individual player wants to achieve and what their personal goals are.

I am a State certified coach and I hold a NJ state certificate to do so. I am registered in Essex, Union and Morris County. I have coached from youth to the High School level for over the past decade plus. I have posted winning records, have built, turned around, and significantly strengthened programs (Livingston, Seton Hall Prep) and have coached teams to the NJ state championship tournaments. (Seton Hall, Delbarton, and Summit).

**My method is simple** – I approach the game through hard work, repetitions, and analysis of player's strengths and weaknesses.

Lacrosse is growing rapidly and the pool of great NJ High School athletes is getting stronger by the year. Please take advantage of the sessions offered to fine tune Lacrosse skills and learn how to play at the highest level. Please take this time to register as a member of Celtic Lacrosse below. I hope to have the opportunity to work with your son or daughter in the future to help them attain their goals as a lacrosse athlete in such a competitive time in their lives.

Sincerely,

Patrick J. Crann

Founder of Celtic Lacrosse
